

# Laboratory Hours

Chemistry 2312

Wednesday, **September 6, 2023**

Honors Organic Chemistry Laboratory

T. R. Hoye

The laboratory and instrument room in 491 Kolthoff Hall will be open and a Teaching Assistant will be present during the following 24 hours each week. (This schedule will be in effect beginning Thursday, September 7.) These are the only hours during which experimentation may be performed and during which you will have physical access to the lab instruments or computers. Goggles and appropriate lab apparel will be required starting on Thursday, Sept. 7.

After 4:10 pm each weekday (and all day on Saturday) we will not have access to the teaching stockroom for supplies and chemicals. Although this should only rarely be necessary, please plan accordingly (*e.g.*, to borrow any specialty glassware items). The TAs will strive to ensure that we have sufficient supplies of common reagents, solvents, and disposables on hand for the times when the stockroom is closed.
