## Chemistry 2301

## Workshop 14 Predicting Reaction Outcomes

Predict the starting materials, reagents or products in the following reactions; put one molecule in each box. (Stereoisomers count as separate molecules.) If there are multiple products, state which ones are major or minor.

$$\begin{array}{c|c} & & & \\ & & \\ & & & \\ & & & \\ & & & \\ & & & \\ & & \\ & & & \\ & & & \\ & & & \\ & & & \\ & & & \\ &$$
