

**Chem/MatS/ChEn 4223W**

**Assignment 19**

**Due:** *By Midnight Monday, April 29*  
*Post as a lab pair.*

Post to the Moodle Discussion Board:

1. The % racemic “impurity” your group was assigned to make for Lab 6;
2. The fraction of D-lactide you measured in your sample from your  $^1\text{H}$ -decoupled NMR spectra in Assignment 17;
3. The  $T_g$  and  $T_m$  you measured by DSC for each of your polymers.

There is no need to turn in this sheet; your web post will be graded directly.
