

**Chem/MatS/ChEn 4223W**

**Assignment 6**

**Due:** *By Lecture, Monday, February 18*  
*Post as a lab group.*

In your report for Lab 2, you will need to incorporate copolymerization data from the entire class. To facilitate this, as a *lab pair*, post the values for  $F_S$  and  $F_{MMA}$  that you calculated for each  $f_S$  sample analyzed by NMR on the course Moodle Data Sharing forum. Your forum message should include your “group number” and all group members’ names for reference.

There is no need to turn in this assignment; your web post will be graded directly.
