12/21/2016	OPE Practice	Kang	Amani	Kolt 97	Natalie

Presentation Guidelines: Research presentations should be 30-45 minutes. Undergraduate research updates should be 10-15 minutes. Please prepare PowerPoint slides that emphasize your project's motivation, plan, and results.

Treats: It doesn't matter what you bring as long as there is enough for all of us.

Safety moment: Please prepare an approximately 1-minute note on a safety issue relevant to our lab. You may prepare 1 or 2 PowerPoint slides or simply present your note orally.
